EDUCATION

Bachelor of Technology in Computer Science and Engineering Dec 2022 - May 2026
Pranveer Singh Institute of Technology (PSIT), Kanpur
CGPA: 7.22/10.0

Intermediate (CBSE): Sri Ram Education Centre, Kanpur 2021-2022
Percentage: 61.6%

High School (CBSE): Sri Ram Education Centre, Kanpur 2019-2020
Percentage: 78.6%

PROJECTS

MindInsight – Mental Health Score Prediction Github(Code) Live Demo Oct 2026
Tech Stack: Python, Pandas, Scikit-learn, FastAPI, Pydantic, Uvicorn, Render

- Built a **scikit-learn pipeline** (log-scaling, ordinal and one-hot encoding) on 5,000 student records; **Random Forest** reached **R^2 0.88** and **MAE 0.35** vs 0.74 and 0.54 for the Linear Regression baseline.
- Served the pipeline via a **FastAPI** `/predict` endpoint with **Pydantic** validation on 12 inputs; deployed API and web form on **Render**.
- Tuned Random Forest with **5-fold cross-validation**; documented as an exploratory tool, not a clinical diagnosis.

AIttendance Github(Code) Jan 2026
Tech Stack: Python, Flask, MediaPipe, OpenCV, scikit-learn, SQLite, RESTful APIs

- Built a **real-time face recognition** attendance app with a **Flask** backend, SQLite database and **RESTful APIs**.
- Achieved **sub-second** response times via background processing and **95%+ recognition accuracy** in testing.

SpamShield – Intelligent Email & SMS Classifier Github(Code) May 2023
Tech Stack: Python, Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Streamlit

- Built an end-to-end **ML pipeline (TF-IDF + Naïve Bayes)** for preprocessing, training and evaluation, reaching **95% accuracy**.
- Deployed a real-time **Streamlit** web app with a user-friendly interface.

SKILLS

Technologies:	Machine Learning, Deep Learning, NLP(Basics)
CS Fundamentals/Relevant Coursework:	OOPs, DBMS, OS, Data Structures, Software Engineering
Programming Languages:	Go, Python, Java, PL/SQL
Databases:	MongoDB, MySQL
Data Analysis and ML Tools:	Excel, Pandas, NumPy, Matplotlib, Scikit-learn, Kaggle
Backend and Deployment:	FastAPI, Flask, REST APIs, Render
Developer Tools:	Git, GitHub, VSCode

ACHIEVEMENTS

- Solved 200+ problems on LeetCode, 5-star in Problem Solving on HackerRank.

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 AI Foundations Associate.
- Databricks Accredited Generative AI Fundamentals, Databricks Academy.
- Crash Course on Python, Google and Coursera.
- SQL (Basic), HackerRank.
